## Solution

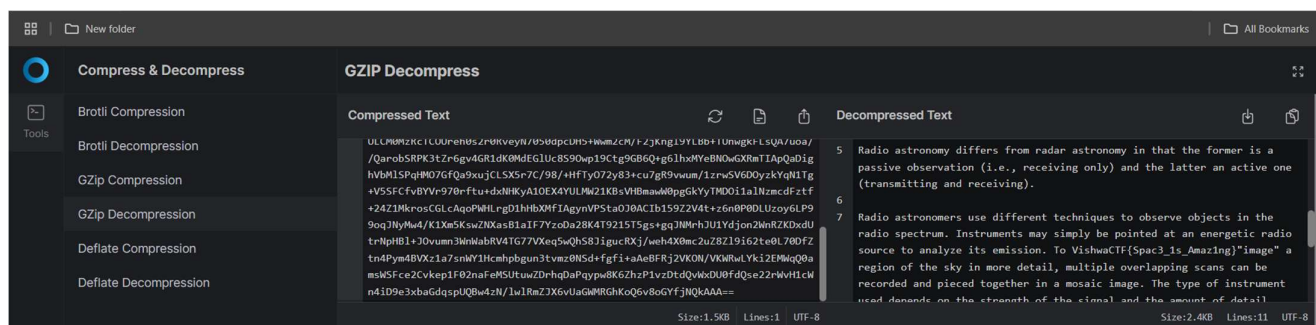

We are greeted with the description of "Speak friend and enter" - a popular riddle from a famous series , the answer to which is that the password is "friend" and along with it we are given a file that reads Hola solucionador - greeting the solver in spanish. The password therefore is – “amigo” meaning friend in spanish.

Inside there is some encrypted text, for this now, we refer to the last hint we have got- the name of the challenge - compression.

```

We can decompress the text with an online decompression tool (figuring that the algorithm used is GZip) and find the flag in the midst of some other text.

File:Hola solucionador.pdf

Flag - VishwaCTF{Spac3\_1s\_Amaz1ng}

Happy Hacking!
